Heritage & Hosiery

The Hosiery Industry was the backbone of DeKalb's Economic Stability for over three quarters of a century with more than 1,350,000 Dozen Pairs of socks shipped out each week.

Cherokee Indian Chief Sequoyah perfected his "Talking Leaves" alphabet here in DeKalb County that incited a whole Cherokee Nation to learn how to read and write in a matter of a few weeks.

The Little River is the only river in the world to run its full length across the top of a mountain. The river stretches across Lookout Mountain, forming Desoto Falls – a 104-ft waterfall.

The official DeKalb County Visitor Center is located just off I-59 at Exit 218 at 1503 Glenn Blvd. SW. It is open daily.

Little River Canyon National Preserve

The Little River is the only river in the world to run its full length across the top of a mountain. The Canyon reaches depths of 700 feet and has an 11-mile canyon rim drive.

Little River is unique because it flows for most of its length atop Lookout Mountain in northeast Alabama. Located on the boundary of DeKalb and Cherokee Counties, in the rugged yet verdant landscape of northeast Alabama, the authorized boundary of the preserve currently contains 15,288 acres, 11,042 acres of which are federally owned and managed. Forested uplands, waterfalls, canyon rims and bluffs, pools, boulders, and sandstone cliffs offering settings for a variety of recreational activities. Natural resources and cultural heritage come together to tell the story of the Preserve, a special place in the Southern Appalachians.

Little River Canyon National Preserve is divided into three parts: Scenic Canyon Rim Drive, Backcountry Area and Canyon Mouth Park. There are also two waterfalls along AL Highway 35 that people also like to visit (Little River Falls from Boardwalk and Martha's Falls/Little Falls).

The Scenic Drive

The Scenic Drive offers an eleven mile drive down AL Highway 176 with eight overlooks to stop and enjoy the scenery.

Very little walking is required to enjoy the views. Picnic tables are available along the scenic drive. There are trails available if you would like to explore. Eberhart Trail has the easiest access to the bottom of the canyon down to the river. It is $\frac{3}{4}$ miles from the top to the bottom; once you are at the bottom of the canyon, you can hike as far as you want. Keep in mind, you have to come back up the $\frac{3}{4}$ miles to get back to the top. A restroom is located at the top of this trail on AL Hwy 176. Beaver Pond Trail is a 1.5 mile loop. This trail offers easy walking and is located on top of the mountain. Birdwatchers or people with kids love this trail for the quick access and easy trails.

The Backcountry Area

The Backcountry Area has about 23 miles of dirt roads that are great for horseback riding. Hunting and fishing are allowed in this area during specified times and dates (users must adhere to Alabama Hunting & Fishing Regulations). There is also a popular swimming area called High Rock found off of Road 05. DeSoto Scout Trails and the YCC Loop to Road 10 trail are found in this area.

Canyon Mouth Park

Canyon Mouth Park is a popular place to picnic, and spend the day near the water. There is a \$10 day-use fee per vehicle. A \$25 Annual pass is available. Restrooms are available at this location.

Waterfalls

Little River Falls offers a paved 100-car parking lot with a boardwalk leading west down to the falls. The parking lot is located next to the AL Hwy 35 bridge. Restrooms and picnic tables are available (no reservations).

A hiking trail on the east side leads you to Martha's Falls/Little Falls. This site offers a gravel parking lot for up to 50 cars. There are no picnic tables or restrooms at this location. This is a very popular attraction for people that want to be near the water.

Plan your visit and learn more about the park at www.nps.gov/liri/index.htm

Accessibility

Little River Canyon National Preserve is largely wooded with only a few trails. The National Park Service strives to make the park as universally accessible as possible.

Your first stop is the Little River Canyon Center located at 4322 Little River Trail NE, Fort Payne, AL 35967. (GPS address: 472 Alabama Hwy 35). This building is accessible to wheelchairs and persons with disabilities. You can watch the movie which has captions for the hearing impaired and get maps of the area.

Little River Falls has a boardwalk that leads you down to a close-up view of the waterfall. There are picnic tables available near the parking lot.

The scenic drive offers a boardwalk on the first overlook, "Little River Falls Boardwalk", it gives you a faraway view of the falls. For additional information concerning accessibility, please contact the LRCNP office at 256-845-9605.

TIMES-JOURNAL

Waterfalls

Head into the woods on hiking trails & paths to DeKalb's most scenic waterfalls.

GRACE'S HIGH FALLS

Located within the 14,000 acres of Little River Canyon National Preserve is Graces' High Falls. Though only visible seasonally, this waterfall is one of Alabama's highest falls.

Plunging 133 feet into the canyon below, the waterfall features a view you can't find anywhere else. When rainfall is high, a significant amount of smaller creeks and waterfalls can be seen while exploring this area.

AZALEA CASCADE

This small cascade flows into a pool located at the end of the Talmadge Butler Boardwalk Trail.

Azalea Falls may also be reached by following the red trail located behind the Country Store which sits at the center of DeSoto State Park.

DESOTO FALLS

One of the most photographed points of interest in Alabama, Desoto Falls is also one of the tallest, standing at 104 feet, and most visited waterfalls in Alabama. It also features numerous smaller falls and area trails to view the falls from a variety of angles.

The waterfall has a concrete dam above the falls, which was built in 1925 for Alabama's first hydroelectric power plant. Now the park's boathouse serves as a place to rent kayaks and ride Little River above the falls.

LODGE FALLS

This easy to find waterfall is suitably named due to its location just behind DeSoto's Lodge. Lodge Falls drops about 25 feet and is rainfall dependent.

The best view point of this waterfall is reached by hiking down into a small ravine and jumping on the yellow trail for a short distance, then coming back out next to the Lodge.

INDIAN FALLS

This interesting waterfall drops about 20 feet into a small ravine, located just across the road from the Talmadge Butler Trailhead.

Indian Falls is about 0.1 miles from the trailhead and is easily reached over a small footpath. A wooden footbridge crosses over the top of this beautiful sight, connecting hikers back to the yellow trail.

LITTLE RIVER FALLS

Little River falls flows in one of America's deepest and most extensive canyon systems east of the Mississippi River. Little River Canyon National Preserve is 14,000 acres of picturesque beauty. Located at the north end of the Canyon, visitors can marvel at Little River Falls – one of Alabama's most scenic waterfalls.

MARTHA'S FALLS/LITTLE FALLS

This popular fall is better known by locals as "the hippie hole" and has fast become one of the most visited swimming areas at Little River Canyon National Preserve. Parking is available off Highway 35, near Road 861, and is accessible by a partially rugged mile long trail.

LOST FALLS

This waterfall is the most difficult to find in DeSoto State Park. When water levels are low and the fall is not flowing, it can appear truly lost. The best time to see this small 5 foot waterfall is in spring or winter seasons. Lost Falls is located about 1.5 miles from Desoto's Country Store and terrain can vary between moderate and mild.

HIGH FALLS

Marvel at the scenic vistas and this majestic 35-foot waterfall, which is the centerpiece of High Falls Park. Formed by Town Creek, the falls span some 300 feet across at times. Near the base of the impressive High Falls is a natural bridge. This 25-foot span of rock features a large arch, eroded by the flow of water over hundreds of years.

POISON IVY FALLS

This large seasonal waterfall is the hardest to get to. Located on the strenuous Desoto Scout Trail-between DST Exit 1 & 2. It can be reached via the Gilliam Loop Trailhead/CCC Road to Exit 1 & 2. Water-level dependent.

LAUREL FALLS

This small but beautiful waterfall can be found off of the orange trail and falls about 6 feet. It is located approximately 3/4 of a mile from Desoto's Country Store with the trail varying between rugged and moderate with some uphill climbs.

While it may sound like something from Star Trek, the Varian Linear Accelerator actually landed much closer to home.

Advanced cancer treatment delivered with kindness – it's a powerful combination.

The Marshall Cancer Care Center has always provided the most advanced cancer technology available. For radiation therapy, the Varian Linear Accelerator delivers a three-way advantage – it's faster, more powerful and more accurate than other options. Combined with Stereotactic Body Radiation Therapy, it offers less time in treatment and fewer side effects. Of course, we never forget that even the most advanced technology is more effective with a big dose of kindness. Add close-to-home convenience and you get a powerful combination for the best possible outcome.

Greater speed, power and precision give the Varian Accelerator a three-way advantage.

Lookout Mountain Scenic Parkway

The short drive holds so much beauty, so many natural scenic treasures, and so many wonderful things to see and do that you will find it takes at least 3 days to see and do it all. The Lookout Mountain Parkway spans three states as it stretches across Lookout Mountain from Gadsden, Alabama to Chattanooga, Tennessee.

Within the parkway's 93-mile span, visitors will find waterfalls, canyons, scenic brow vistas, unique towns and villages, parks and preserves, and many more natural wonders.

Lookout Mountain is beautiful year-round. The four seasons bring flowering Rhododendrons and Mountain Laurel, children enjoying summer camp, majestic fall foliage and light snows that gently cover the landscape.

It is also home to the extravaganza, The World's Longest Yard Sale that takes place in August, where over 5,000 yard sale vendors line the Lookout Mountain Parkway and the US 127 Corridor for some 660+ miles of bargains.

From one end of it to the other, it is easy to understand how Reader's Digest could name The Lookout Mountain Parkway as one of America's Scenic Drives.
